

Krystal 15 Emulsion EF

Krystal 15 Emulsion EF is a state of the art, water emulsion of 100% pure methyl methacrylate resin which produces a VOC compliant curing compound for curing, hardening, and dustproofing freshly placed concrete. Krystal 15 Emulsion EF provides total resistance to yellowing from ultraviolet exposure, is freeze-thaw stable, and due to the lack of any solvent odors, it is ideal for interior construction projects.
