

Krystal 25

Krystal 25 is high quality, wet-look, solvent-based, non-yellowing concrete curing & sealing compound, which contains greater than 25% of modified acrylic co-polymers for better curing, sealing, hardening and dustproofing of concrete slabs. Krystal 25 creates a high gloss on both new and old concrete, and along with resistance to yellowing from ultra-violet exposure, makes Krystal 25 ideal for use on pavers as well as all exterior decorative concrete. Krystal 25 is also available with a brown tone to highlight the colors in exposed concrete.
