

# SureHard PSR

**SureHard PSR** is a hybrid blend of two distinct chemistries that when combined bring together the long-lasting benefits of a reactive penetrating sealer and the protection and beauty of a non-yellowing surface sealer. SureHard PSR is an easy to use, low-VOC, and water-based liquid that is ideal for use on aged broom-finished concrete and concrete block (CMU). SureHard PSR will provide protection from freeze-thaw cycling, will prevent contaminants such as mold, mildew, pollen from entering the pores, will reduce or eliminate dusting, and will help prevent efflorescence issues.

## ADVANTAGES

- ✔ Protection from Freeze-Thaw Cycling
- ✔ Non-Yellowing
- ✔ Odorless
- ✔ Reduces Porosity in Concrete
- ✔ Water Based
- ✔ Easy Application
- ✔ Long Lasting Performance
- ✔ USDA
- ✔ Dustproofs Concrete
- ✔ Resists Staining
- ✔ Helps to Prevent Efflorescence
- ✔ Easy to Maintain & Clean Floors
- ✔ Will Not Affect Surface Traction

## PACKAGING

- ✔ 1-gallon jugs
- ✔ 5-gallon pails
- ✔ 55-gallon drums

## USES

- ✔ Dustproofing Aged Concrete
- ✔ Concrete Block (CMU)
- ✔ Broom Finished Concrete
- ✔ Water Repellency
- ✔ Commercial & Residential Applications
- ✔ Sidewalks
- ✔ Patios
- ✔ Pool Decks
- ✔ Driveways
- ✔ Interior or Exterior Applications

## APPLICATION RATE

- ✔ Broom Finished Concrete: 200-300 ft<sup>2</sup>/gal
- ✔ Concrete Block (CMU): 150-300 ft<sup>2</sup>/gal.

## TEST METHODS

## TEST RESULTS

Wet Color	White
Dry Color	Clear
Solids Content	12 - 15%
Viscosity	10 - 20 cps.
Specific Gravity	1.06
Dry Time	1-3 Hours
Foot Traffic	6 - 12 Hours
Wheel Traffic	8 - 12 Hours
VOC Content	< 10 g/l
Solubility in Water	Excellent
Evaporation Rate	Similar to Water
Ph	11.5
Flash Point	> 500°F
Odor	Slight Solvent
Shelf Life	2 Years Unopened
